

## TIRE, DRAGGY WORN-OUT

Texas Lady Thus Describes Condition She Was In. Then Tells How Cardui Relieved Her.

West, Texas—Mrs. J. A. Hunter, of this place, recently made the following statement: "I have known of Cardui for years—when a girl, my mother gave it to me to stop pains...and it certainly did me a great deal of good.

After marriage I was in a run-down state of health and nervous, not at all like my usual self...so much so that I had to go to bed. I began taking Cardui...soon I was strong, able to do my work, even my washing.

I have been well since...and I can recommend Cardui and gladly do so... Whenever I over-work and feel tired, draggy, worn-out, I take a few doses of Cardui. It strengthens me, gives me an appetite, seems to strengthen my back, and I soon feel like going to work again.

I think all women should keep and use Cardui. It is splendid."

If you are suffering from any of the symptoms Mrs. Hunter mentions, try Cardui, the woman's tonic.

In use for over 40 years, Cardui has helped thousands of women.

Cardui is composed of mild, medicinal, vegetable ingredients, acknowledged by standard medical writers to be of benefit in many female disorders.

## GERMANY DESERTED BY HER LAST ALLY

AUSTRIA-HUNGARY HAS BEEN GRANTED ARMISTICE AFTER DAYS OF PLEADING.

## 100,000 PRISONERS TAKEN

In Swift Drive, the Allied Forces, in Addition to Prisoners, Take More Than 2,200 Guns.

Austria-Hungary is out of the war. Deserted by her last ally, Germany fights alone a battle which means ultimate defeat or abject surrender.

After days of pleading an armistice has been granted Austria-Hungary, whose badly defeated armies in the Italian theater are staggering homeward under the violence of the blows of the entente troops.

Trent, in Austrian Tyrol, which the Italians always have claimed as their own, has been captured by them; Trieste, Austria's principal seaport on the Adriatic over which there has been such bitter fighting, now flies the Italian flag; and Belgrade, capital of Serbia, has been recaptured by the Serbians.

Although the Austro-Hungarians have been given an armistice they are still being bitterly attacked by the Italian, British, French, American and Czechoslovak troops in the mountains and on the plains.

Entire regiments are surrendering to the Italians in the mountains and large numbers of the enemy are being made prisoner on the plains. Heavy casualties are being inflicted on the retreating troops. Many additional towns have been reclaimed.

In their swift drive against the Austro-Hungarians the allied forces have up to the present taken more than 100,000 prisoners and have captured more than 2,200 guns. So rapid has been the advance over the plains that Italian cavalry already has crossed the Tagliamento river, and entered Udine.

## THE TERMS OF ARMISTICE HAVE NOT BEEN DISCLOSED

Washington. — Armistice terms which the Austrians have accepted are expected here to furnish a clear index to those which the supreme war council at Versailles is preparing for Germany. Consequently their publication will carry greater significance than otherwise would attach since the Austrian surrender had been discounted in advance by the internal disintegration of the dual monarchy and the collapse of the Austro-Hungarian forces on the Italian front.

## AMERICAN AVIATORS REPORT RAPID RETREAT OF GERMANS

With the American Forces Northwest of Verdun. — American aviators report that the Germans to the east of the Meuse appeared to be in full retreat. The aviators' message said that all roads running northward were packed with troops, artillery, and trucks.

The American aviators went as far as Removille. They reported that the roads southwest of Removille are choked with traffic.

The retreating German troops and convoys and enemy ammunition dumps and various villages within the Teuton lines were attacked by American bombing planes.

Great damage is reported to have been done and consternation caused among the retreating troops.

## FURTHER ESTIMATES SHOW AN INCREASE IN SUBSCRIPTIONS

Washington.—Despite peace talk and influenza, American citizens have responded for a fourth time to the government's appeal for war loans with more than was asked. Total subscriptions of \$6,866,416,300 from more than 21,000,000 individuals is the record of the Fourth Liberty Loan, as announced by the treasury based on careful estimates by the 12 federal reserve banks. The entire \$66,416,300 oversubscription will be accepted.

## LARGE CLASS OF CADETS IS GRADUATED AT WEST POINT

West Point, N. Y.—At the commencement exercises of 510 members of the classes of 1920 and 1921 at the United States Military Academy, Benedict Crowell, assistant secretary of war, announced that the class of 1921 would be sent back for a post graduate course, if an armistice were arranged with all the central powers. Otherwise, he said, all the members of both classes would be in France within four months.

## TURKEY ACCEPTS ARMISTICE TERMS

COMPLETE AND UNCONDITIONAL SURRENDER IS MEANING OF TURKEY'S ACTION.

## IS NO POLITICAL AGREEMENT

Among Other Clauses May Be Noted That Giving Allies Free Use of All Ports and Anchorages.

London.—The armistice accepted by Turkey amounts to "complete and unconditional surrender."

This statement was made by Lord Robert Cecil, Assistant Secretary of State for Foreign Affairs.

The terms of the armistice granted by the allied powers to Turkey follows:

With reference to rumors circulating here to the effect that the armistice with Turkey includes clauses by which Turkey would retain sovereignty over Armenia and other provinces, the foreign office authorizes the statement that there is no truth in the suggestion that any secret political agreement is annexed to the armistice with Turkey.

1. The opening of the Dardanelles and the Bosphorus and access to the Black Sea. Allied occupation of the Dardanelles and Bosphorus forts.

2. The position of all mine fields, torpedo tubes and other obstructions in Turkish waters are to be indicated, and assistance given to sweep or remove them, as may be required.

3. All available information concerning mines in the Black Sea is to be communicated.

4. All allied prisoners of war and Armenian interned persons and prisoners are to be collected in Constantinople and handed over unconditionally to the allies.

5. Immediate demobilization of the Turkish army, except such troops as are required for surveillance on the frontiers and for the maintenance of internal order. The number of effective and their disposition to be determined later by the allies after consultation with the Turkish government.

6. The surrender of all war vessels in Turkish waters or waters occupied by Turkey. These ships will be interned in such Turkish port or ports as may be directed, except such small vessels as are required for police and similar purposes in Turkish territorial waters.

7. The allies have the right to occupy any strategic points in the event of any situation arising which threatens the security of the allies.

8. Free use by allied ships of all ports and anchorages now in Turkish occupation and denial of their use by the enemy. Similar conditions are to apply to Turkish mercantile shipping in Turkish waters for the purpose of trade and the demobilization of the army.

9. Immediate withdrawal of Turkish troops from northern Persia to behind the pre-war frontier already has been ordered and will be carried out.

10. A part of Trans-Caucasia already has been ordered to be evacuated by Turkish troops. The remainder to be evacuated if required by the allies, after they have studied the situation.

11. Wireless telegraph and cable stations to be controlled by the allies. Turkish government messages to be intercepted.

12. Prohibition against the destruction of any naval, military or commercial material.

13. Facilities are to be given for the purchase of coal, oil, fuel and naval material from Turkish forces, after the requirements of the country have been met. None of the above materials are to be exported.

14. The surrender of all ports occupied in Tripolitania and Cyrenaica, including Misurata, to the nearest allied garrison.

15. All Germans and Austrians, naval, military or civilian, to be evacuated within one month from Turkish dominions, and those in remote districts as soon after that time as may be possible.

16. Turkish prisoners are to be kept at the disposal of the allied powers. The release of Turkish civilian prisoners and prisoners over military age is to be considered.

17. An obligation on the part of Turkey to cease all relations with the Central Powers.

18. In case of disorder in the six Armenian vilayets the allies reserve to themselves the right to occupy any part of them.

19. Hostilities between the allies and Turkey shall cease from noon, local time, Thursday, the 31st of October, 1918.

## 362,355 PRISONERS CAPTURED BY ARMIES OF THE ALLIES

Paris.—Since the great offensive began on the western front on July 15, last, the allied armies have captured 362,355 prisoners, including 7,990 officers, as well as 6,211 cannon; 38,622 machine guns and 3,907 mine-throwers.

The allies during the month of October captured 108,343 prisoners, including 2,472 officers, as well as 2,064 cannon; 13,639 machine guns and 1,193 mine-throwers.

## DOCTORS CALLED WITHOUT CAUSE

Imperative That Physicians and Nurses Not Be Summoned Unless Necessary.

## PROPER CARE OF PATIENTS

Surgeon General Blue Tells What to Do for Persons Sick With Spanish Influenza—Use of Gauze Masks Recommended.

Washington.—In an effort to reduce unnecessary calls on the over-worked physicians throughout the country because of the present epidemic of influenza, Surgeon General Blue of the United States public health service calls upon the people of the country to learn something about the home care of patients ill with influenza. Physicians everywhere have complained about the large number of unnecessary calls they have had to make because of the inability of many people to distinguish between the cases requiring expert medical care and those which could readily be cared for without a physician. With influenza continuing to spread in many parts of the country, and with an acute shortage of doctors and nurses everywhere, every unnecessary call on either physicians or nurses makes it so much harder to meet the urgent needs of the patients who are seriously ill.

**Present Generation Spoiled.**  
"The present generation," said the surgeon general, "has been spoiled by having had expert medical and nursing care readily available. It was not so in the days of our grandmothers, when every good housewife was expected to know a good deal about the care of the sick."

"Every person who feels sick and appears to be developing an attack of influenza should at once be put to bed in a well-ventilated room. If his bowels have moved regularly, it is not necessary to give a physic; where a physic is needed, a dose of castor oil or Rochelle salts should be given."

"The room should be cleared of all unnecessary furniture, bric-a-brac, and rugs. A wash basin, pitcher, and slop bowl, soap and towel should be at hand, preferably in the room or just outside the door."

"If the patient is feverish a doctor should be called, and this should be done in any case if the patient appears very sick, or coughs up pinkish (blood-stained) sputum, or breathes rapidly and painfully."

"Most of the patients cough up considerable mucus; in some, there is much mucus discharged from the nose and throat. This material should not be collected in handkerchiefs, but rather in bits of old rags, or toilet paper, or on paper napkins. As soon as used, these rags or papers should be placed in a paper bag kept beside the bed. Pocket handkerchiefs are out of place in the sick room and should not be used by patients. The rags or papers in the paper bag should be burned."

"The patients will not be hungry, and the diet should therefore be light. Milk, a soft-boiled egg, some toast or crackers, a bit of jelly or jam, stewed fruit, some cooked cereal like oatmeal, hominy or rice—these will suffice in most cases."

## Comfort of Patient.

"The comfort of the patient depends on a number of little things, and these should not be overlooked. Among these may be mentioned a well-ventilated room; a thoroughly clean bed with fresh, smooth sheets and pillowcases; quiet, so that refreshing sleep may be had; cool drinking water conveniently placed; a cool compress to the forehead if there is headache; keeping the patient's hands and face clean, and the hair combed; keeping his mouth clean, preferably with some pleasant mouth wash; letting the patient know that someone is within call, but not annoying him with too much fussing; giving the patient plenty of opportunity to rest and sleep."

"It is advisable to give the sick room a good airing several times a day."

"So much for the patient. It is equally important to consider the person who is caring for him. It is important to remember that the disease is spread by breathing germ-laden matter sprayed into the air by the patient in coughing or even in ordinary breathing. The attendant should therefore wear a gauze mask over her mouth and nose while she is in the sick room. Such a mask is easily made by folding a piece of gauze four fold, sewing a piece of tape at the four corners, and tying the upper set of tapes over the ears, the lower set around the neck. If the folded piece of gauze is about six inches square it will nicely cover both mouth and nose. Such a mask can be worn without discomfort for several hours, after which it can be boiled in water, dried and used over."

## Observe Cleanliness.

"The attendant should, if possible, wear a washable gown or an apron which covers the dress. This will make it much simpler to avoid infection."

"It is desirable that all attendants learn how to use a fever thermometer. This is not at all a difficult matter, and the use of such a thermometer is a great help in caring for the patients. The druggist who sells these thermometers will be glad to show how they are used."

"In closing, and lest I be misunderstood, I wish to leave one word of caution: If in doubt, call the doctor."
